Ditch Social Media: Try This New App Instead

Cassie Leigh 2023-01-02

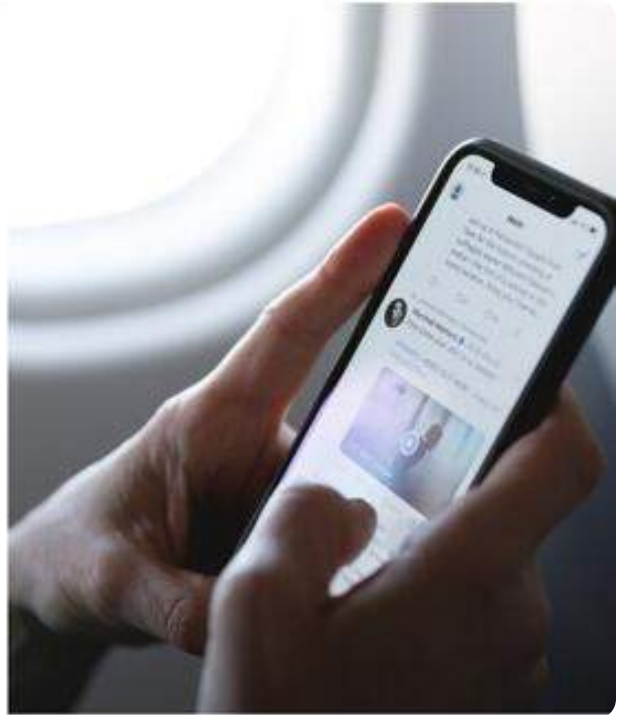

Photo by Spinnr | Unsplash

This post is sponsored.

Ring in the New Year with goals of staying off social media? If you answered yes, you're not alone! With large social media platforms often dominated by harsh algorithms, intrusive ads and spam bots, to name only a few key issues, it's no wonder why many people decide to deactivate or delete their social profiles for good as part of their New Year's resolution. Unfortunately, there are plenty of studies that suggest [quitting social media cold turkey is hard](#) and many soon find themselves searching ways to fill the lack of online camaraderie. So, what gives--and more importantly, what can be done to avoid a social media relapse? I interviewed Jason Sherman, creator of [Spinnr](#), an app created to rival top social

...friendships, leaving many people without the support and connection they need," said the 46-year-old Philadelphia resident in an exclusive interview with me.

"Most [social media] apps expect you to already have friends to connect with. They also promote likes, comments, followers, and a lot of other toxic behavior," furthering that he created Spinnr specifically to do things the other way around.

"We are dedicated to helping people build and maintain meaningful friendships," he noted.

The app, which officially launched about six months ago, was designed to connect people in a unique and differentiated way that, as he puts it, has the potential to revolutionize how people connect and build friendships in the digital age.

"We want you to make new friends, and engage with them, not follow or like their posts. As a matter of fact, we don't have any toxic behavioral features on the app."

And while promoting real connections, another thing that Sherman says the app does differently is being video first.

"This means no fake pictures or profiles. Only real, authentic people. Think of it as a social network for people who want to connect over their shared passions and interests. No more scrolling through endless feeds or fake profiles—just pure fun with like-minded individuals."

Could Spinnr be the new big thing? Sherman believes it certainly has potential.

Comments / 0

people missed the social pressure of the mainstreaming apps can many, and more authentic and meaningful ways to connect with others. We are committed to being inclusive and welcoming to the LGBTQ community and all genders or identities. We hope that people find us, and realize that we are truly the only place to meet new authentic people to engage in fun activities. We want people to get out in the real world again, and get off of toxic social media. Engage in hobbies, go to events, play sports, cook, travel, and spin around the world together!"

Spinnr: Revolutionizing Friendships and Rebuilding Physical Community in the Digital Age

Revolutionizing Connections: Spinnr and Airbnb Join Forces to Rebuild Physical Community in the Loneliest Time

PHILADELPHIA, PA, UNITED STATES, July 7, 2023 /EINPresswire.com/ -- [Spinnr](https://www.spinnr.com/), the unique video friendship app, is poised to transform the way people connect and build meaningful friendships in the midst of a loneliness crisis. Simultaneously, Airbnb CEO Brian Chesky calls for the revival of physical community, highlighting the urgent need to bring people together in a world that is increasingly disconnected. These two innovative approaches converge to address the pressing issues of loneliness, isolation, and the decline of social connections in the digital era.

AirBnB and Spinnr

“

Spinnr and Airbnb unite to redefine community connections, bridging the gap between virtual interactions and real-life experiences.”

Kristin LaSalle

Spinnr, the groundbreaking video friendship app, offers a personalized and authentic platform for individuals to connect with like-minded people based on shared hobbies and interests. By leveraging video profiles, intro videos, video messaging, and community chats, Spinnr fosters genuine connections that transcend the superficial interactions found on traditional social media platforms. With its user-friendly experience and emphasis on authenticity, Spinnr stands out in a crowded and often toxic market.

Airbnb CEO Brian Chesky has identified the current era as the "loneliest time in human history" and urges the rebuilding of physical community. In an interview at the Bloomberg Technology Summit, Chesky emphasized the need to counter the decline of gathering spaces caused by remote work, online shopping, and streaming services. He called for the transformation of

commercial spaces into residential or mixed-use areas, highlighting the potential to revitalize communities and create vibrant, multi-zone environments. Chesky's vision aligns with the changing real estate landscape and the opportunity to breathe new life into struggling commercial properties.

By combining the approaches of Spinnr and Airbnb, we have an opportunity to revolutionize friendships and rebuild physical community. Spinnr offers a video-first platform that fosters authentic, in person connections by providing an event section based on popular hobbies and interests, which provides a much-needed solution to the loneliness crisis. Meanwhile, Airbnb's emphasis on the revitalization of physical spaces aligns with the need to create gathering spots that foster community interaction and meaningful connections.

"With Spinnr's squads feature, connecting with like-minded individuals becomes the gateway to unforgettable experiences. Imagine effortlessly planning exciting outings, whether it's a spontaneous weekend adventure, a heart-pumping group fitness session, or a fun cooking class. Spinnr makes it easy to create lifelong memories and forge genuine connections in the real world. Get ready to embark on exciting journeys and make new friends like never before!" - Kristin LaSalle, Co-founder and VP of Marketing at Spinnr

[A new advisory from the Surgeon General](#) has sounded the alarm about the profound impact of the epidemic of loneliness and isolation in the United States. The consequences of loneliness and social isolation are severe, with studies showing a 29% increased risk of heart disease, a 32% increased risk of stroke, and a 50% increased risk of developing dementia for older adults. Moreover, lacking social connection raises the risk of premature death by over 60%. Spinnr's commitment to helping individuals build and maintain meaningful friendships, regardless of external challenges, resonates with the urgency of addressing this crisis. By offering a zero toleration policy when it comes to trolls, bad language, offensive content, and bullying, along with a user-friendly experience, Spinnr provides a safe and engaging platform for individuals to connect and engage with like-minded individuals.

As the digital landscape undergoes a profound transformation, the need for physical community becomes increasingly apparent. Chesky's call to repurpose commercial spaces and create vibrant, multiuse environments aligns with the changing real estate trends and the demand for more residential and community-oriented properties. By combining the efforts of Spinnr and Airbnb, we can pave the way for a world where individuals can form genuine connections both online and offline.

Spinnr is available for download on the [App Store](#) and Google Play Store worldwide, providing a unique and differentiated platform that has the potential to revolutionize the way people connect and build friendships. Join Spinnr today and embark on a journey to rediscover the joy of genuine connections in the digital age.

Spinnr Revolutionizes Friendships with Launch of Retro Dance Challenge

Spinnr launches Retro Dance Challenge with a \$5,000 grand prize, fostering friendships through '80s-inspired dance.

PHILADELPHIA, PA, UNITED STATES,
September 18, 2023 /

EINPresswire.com/ -- Spinnr, the innovative video friendship platform dedicated to fostering genuine human connections through shared interests and hobbies, is proud to announce the launch of its exciting new initiative, the

[Retro Dance Challenge](#) with a [grand prize of \\$5,000](#).

This contest not only showcases the power of meaningful friendships but also features a captivating song produced by CEO Jason Sherman. In addition, the contest music video was created with Midjourney images and RunwayML AI-generated visuals, adding an extraordinary touch to the experience.

Spinnr's Retro Dance Challenge

“

There's no better way to forge friendships, embrace community, all while sharing your talents with a fun dance contest.”

CEO of Spinnr, Jason Sherman

The Retro Dance Challenge comes as a response to the increasing challenges of social isolation and loneliness exacerbated by the digital age and recent global events. With studies revealing alarming statistics — many Americans expressing dissatisfaction with their friendships and even more feeling the impact of a "friendship recession" — Spinnr's innovative approach to social networking takes center stage.

"Our mission at Spinnr is to bridge the gap in human connections by creating a community that thrives on shared interests," explained Jason Sherman, CEO of Spinnr. "We firmly believe that our platform is the answer to this glaring issue, fostering genuine friendships and promoting healthy tech usage in today's world."

Spinnr's groundbreaking video-first approach sets it apart from conventional platforms. With a member base encompassing city transplants, introverts with hobbies, couples, single parents,

and various other groups, Spinnr enables members to build authentic relationships through video profiles, introductory videos, and multimedia chats. By focusing on video communication, the platform eliminates the risk of fake profiles, scams, and catfishing, creating a safe and vibrant environment.

The Retro Dance Challenge is a dynamic celebration of friendship, and the vibrant spirit of the 80s. Contest participants are invited to showcase their creativity and passion by submitting dance routines that incorporate four of the six retro dance moves inspired by the 80s, and shown in the official contest video. These captivating routines will reflect the era's spirit of camaraderie and self-expression.

Central to this electrifying contest is the official contest song, "[Spin Spin Spinnr](#)," meticulously produced by none other than Jason Sherman, the visionary CEO of Spinnr. The song not only encapsulates the essence of the 80s but also amplifies the sense of togetherness and community that the contest seeks to cultivate. To take part, participants must unleash their creativity and choreograph captivating dance routines that embody the retro theme. These routines should seamlessly integrate the official dance moves presented in the Spinnr Retro Dance Challenge video, adding a touch of nostalgia to the contemporary dance landscape.

The contest not only celebrates the power of dance and creativity but also provides participants the chance to vie for a range of impressive prizes. One grand prize of \$5,000, featuring on Spinnr's social media, a year of Premium Subscription, and Spinnr Merch, will be awarded to a winner who meets eligibility requirements. A gold prize of \$1,000 with similar perks will go to another winner. The diamond prize, worth \$500, will be given to one recipient along with Spinnr-related rewards. Spinnr Choice Awards include \$25 Amazon Gift Cards and Spinnr Merch for chosen videos. All participants will receive a digital certificate of participation.

As the world embraces digital connectivity, the Retro Dance Challenge embodies Spinnr's commitment to authentic interactions and innovation. By joining this electrifying event, participants not only ignite their creativity but also form connections that transcend time, capturing the essence of the 80s in a modern, digital age. Spinnr aims to be a transformative force in the world of digital interaction. "We've created a one-of-a-kind platform that has the potential to reshape how people connect and build friendships," said Kristin LaSalle, CMO of Spinnr. "By focusing on shared interests, hobbies, and meaningful relationships, we're confident Spinnr will become a go-to destination for authentic connections in the digital era."

Spinnr and Vengo AI Forge New Paths in AI with Shared Creator Economy

Innovative platforms combine forces to revolutionize social connections and digital companionship, setting a new standard in the AI industry.

PHILADELPHIA, PA, UNITED STATES, February 15, 2024 /EINPresswire.com/

-- In a groundbreaking move, [Spinnr](#) and [Vengo AI](#) are disrupting the artificial intelligence and social networking spaces by introducing a unique shared creator economy model. This strategic collaboration is

set to redefine how users interact with AI, fostering deeper connections and offering unprecedented personalization in digital companionship.

WeFunder Spinnr Vengo AI

Their offerings are a direct solution to the U.S. Surgeon General's Health Crisis: The Loneliness Epidemic. According to Mental Health America (MHA), in 2022, 55% of adults with a mental illness receive no treatment – over 28 million individuals in one study alone. Also, more than 26% of adults across the world have reported feeling lonely, a new 2023 Meta-Gallup survey has found.

“

Our mission has always been about more than just making connections; it's about building genuine friendships and ending loneliness around the world.”

CEO of Spinnr, Jason Sherman

Spinnr, renowned for its AI-driven platform that facilitates authentic friendships through personalized video interactions, is expanding its horizons. By leveraging AI, Spinnr connects users based on shared interests, creating

a more meaningful social experience. "Our mission has always been about more than just making connections; it's about building genuine friendships and ending loneliness around the world," says Jason Sherman, CEO of Spinnr.

Vengo AI, with its large language model, natural language processing, and proprietary datasets with unique conversational training, brings to the table its advanced digital companionship

platform. With a focus on empathy and emotional intelligence, Vengo AI's personas provide members with a sense of belonging and support, addressing the growing issue of social isolation. "Vengo AI is not just artificial intelligence; it's a friend, mentor, and companion rolled into one," states Kristin LaSalle, CMO of Spinnr.

The launch introduces a shared creator economy, allowing members and creators to develop and monetize personalized AI companions. This model not only incentivizes creativity but also democratizes the creation of AI personas, making technology more accessible and diverse without the need to have coding skills. "By empowering members to create and earn revenue from their own AI personas, they're unlocking a world of possibilities," adds Tim Lemmon, Advisor to Spinnr and former COO of AOL, Yahoo, and Verizon Media.

The platforms are poised to have a significant impact on the AI industry, challenging traditional models of social networking and digital companionship. Perfectly placed within a combined \$250 billion market value of two juggernaut industries: social and AI, along with an increasing demand for personalized digital experiences. Spinnr and Vengo AI are at the forefront of a major shift in how people connect online. It's no wonder Spinnr has been awarded \$150,000 in growth credits through the [Microsoft Startup Founder Program](#). In addition, Spinnr is proud to announce that they have also received grants from OpenAI, Stripe, and ElevenLabs.

As Spinnr and Vengo AI venture into this new territory, they're not just growing their scalable platforms; they're fostering a community where technology enhances human connections in meaningful ways. This venture marks a milestone in the evolution of AI and social networking, promising a future where technology brings us closer, not just digitally, but emotionally and personally as well. You can join them on their journey by [investing on their WeFunder](#) campaign that is now live.

Spinnr Aims to Revolutionize Online Connections with Video-Based Platform and AI Chat Friend

Spinnr Meet New Friends

Published 2:18 PM EST, January 25, 2023

01/25/2023, Philadelphia // KISS PR Brand Story PressWire //

According to recent studies, social media has had a negative impact on human interaction and has contributed to feelings of anxiety and depression. In fact, 49% of Americans are not happy

with the amount of friends they have, and 61% are in a “friendship recession” and feeling lonely. The pandemic has also erased entire categories of friendships, leaving many people without the support and connection they need. The consequences of loneliness and social isolation can be severe, with 47% of Americans reporting having had suicidal thoughts due to a lack of friends.

“We believe there is a huge gap in the market for creating friendships and joining a community. Our innovative platform is the solution to this obvious problem,” said Jason Sherman, CEO of [Spinnr](#). “Our forward-thinking platform is designed to promote healthy and balanced use of technology and foster genuine human connections. We are dedicated to helping people build and maintain meaningful friendships, regardless of the challenges presented by the pandemic or other factors.”

After a successful beta launch in the fall of 2022, the data showed that they have a wide range of target users, including city transplants, activity partners, introverts with hobbies, married couples, single parents, roommates, musicians, sports enthusiasts, entrepreneurs seeking a cofounder, and even singles who are exhausted from using dating apps and are only looking for friends. The platform is also committed to being inclusive and welcoming to the LGBTQ community and all genders.

With a friendship recession caused by the pandemic forcing roughly 61% of Americans to feel isolated and lonely, Spinnr aims to change the way people form authentic connections. One of the main differentiators where Spinnr excels in doing this, is by being entirely built around video technology. Members can create video profiles to showcase their personalities and their interests, send intro videos to make a strong first impression, and send video and audio messages, or photos and text to chat with friends and potential connections. This video first approach changes the way people connect and communicate, with no room for fake profiles, scams, or catfishing.

In terms of business model, Spinnr currently offers in-app purchases for a limited amount of unlockable features, and is primed to release premium upgrades, and brand placements in the near future. The company has a strong and diverse team with years of experience across technical, marketing, and business areas, and its go-to-market strategy includes a beta launch, university promotion, and a solid plan to reach critical mass and earn revenue.

But that’s not all – Spinnr has recently added a new feature to Spinnr: an AI chat friend. This feature allows users to have real-time conversations with a virtual chat buddy, providing a safe and supportive space for people to connect and chat about their interests and hobbies, as well as a way to learn about pretty much any topic. “We are excited to introduce this advanced feature to our platform,” said Sherman. “We believe it will provide a fun layer of interactivity, engagement, and connection for our users, and we can’t wait to see how it is embraced.”

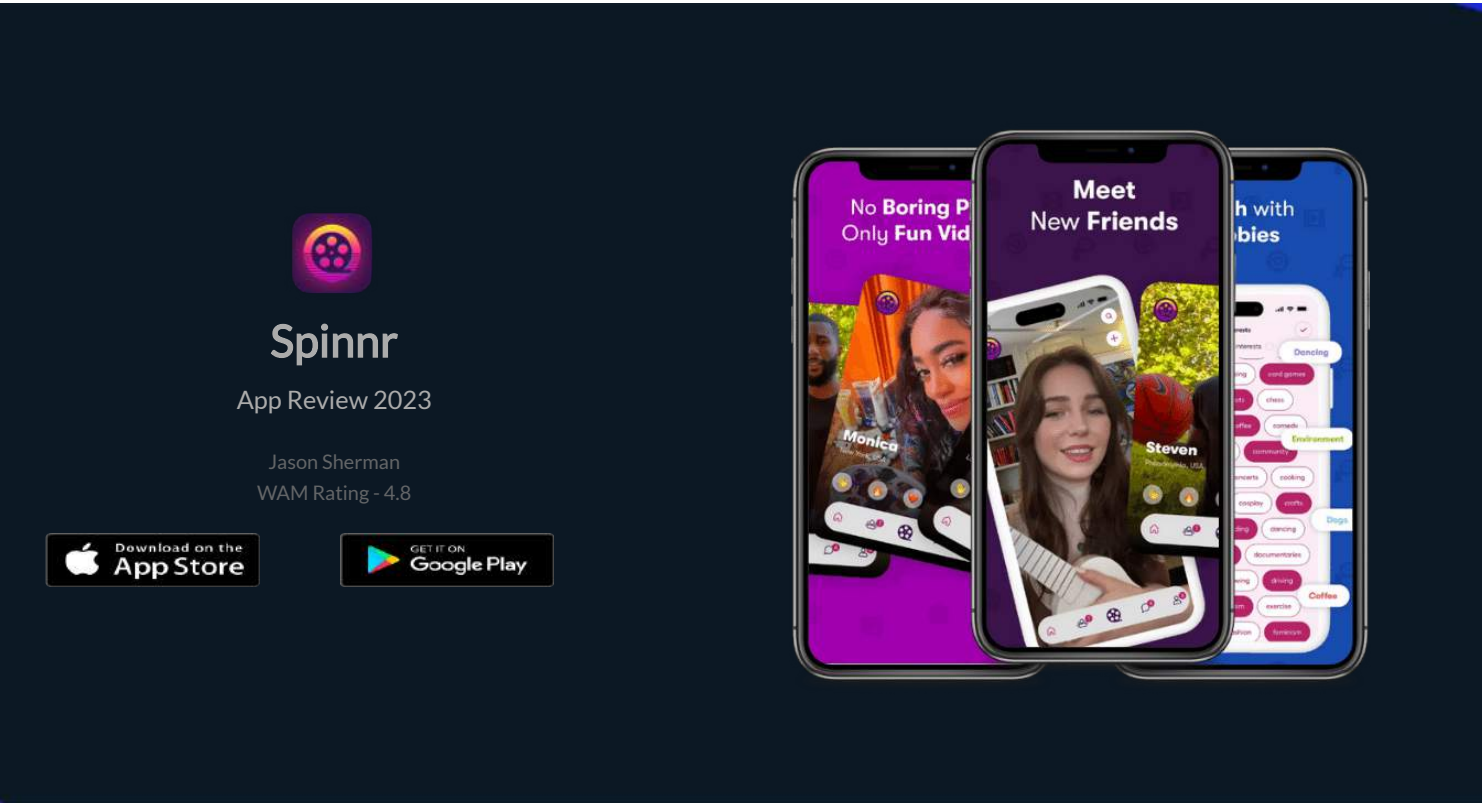

With 32% of people on social media showing signs of depression, Sherman and his team are confident that Spinnr will be a game-changer in the video and friendship-building space, and help people combat isolation and loneliness. “We believe we have created a unique and differentiated platform that has the potential to revolutionize the way people connect and build friendships in the digital age,” said Kristin LaSalle, CMO of Spinnr. “With our focus on shared interests, hobbies, and meaningful connections, we are confident that Spinnr will become a go-to destination for people looking to build and maintain friendships in a healthy and balanced way.”

Introduction

Ready to shake up your social scene? Say hello to Spinnr – the fun and unique way to make new friends! Forget about feeling lonely and embrace the power of genuine human connections with Spinnr. No more boring text and picture profiles with lame bios – it's time to show off the real you. With Spinnr, you can easily find people with similar interests and hobbies, and create meaningful connections through video profiles.

Introducing Spinnr: The fun way to meet new friends!

We believe that friendship and human connections are essential, so we've created a friendship video network that encourages authenticity and eliminates any negativity. No more likes, shares, comments, and toxic social media culture – it's time to get out there and live life to the fullest with new friends by your side. So, are you ready to join the fun and creative social network? Get Spinnr today!

Fantastic Features of Spinnr

This mind-blowing app has several features that allow you to meet new friends with the same hobbies and create meaningful connections while being your authentic self.

Fantastic Features of Spinnr

Some of the features include;

- Create a fun video profile for people to see your personality
- Watch video profiles of other members to get to know them
- Send an intro video or message to someone, and send a friend request
- Chat with matches using free text, photo, audio, or video messages
- Join or create a Squad! Life is more fun in groups of friends!
- There's your A.I. chat friend, Spinny, which you can talk to.
- Connect your Spotify to show your favorite artists.
- Shoot the Daily Spin at 2 pm every day with a random question to answer.
- You can stack up coins for the future by earning coins for using the app each day.
- You can pick any LGBTQ or gender of your choice with an identity screen.

What's the Cost of Using Spinnr?

There are in-app purchases but the app is free for now. The app plans on releasing a premium version in the future, but in the meantime, as you use the app, you can earn coins that you will be able to use in the future, so start racking them up!

What's the Cost of Using Spinnr?

Sign up for free
on your Apple device

No hidden charges, and no monthly or yearly subscription plans.

There are in-app purchases but using the app is free.

Simply install the app to your Android or iOS device.

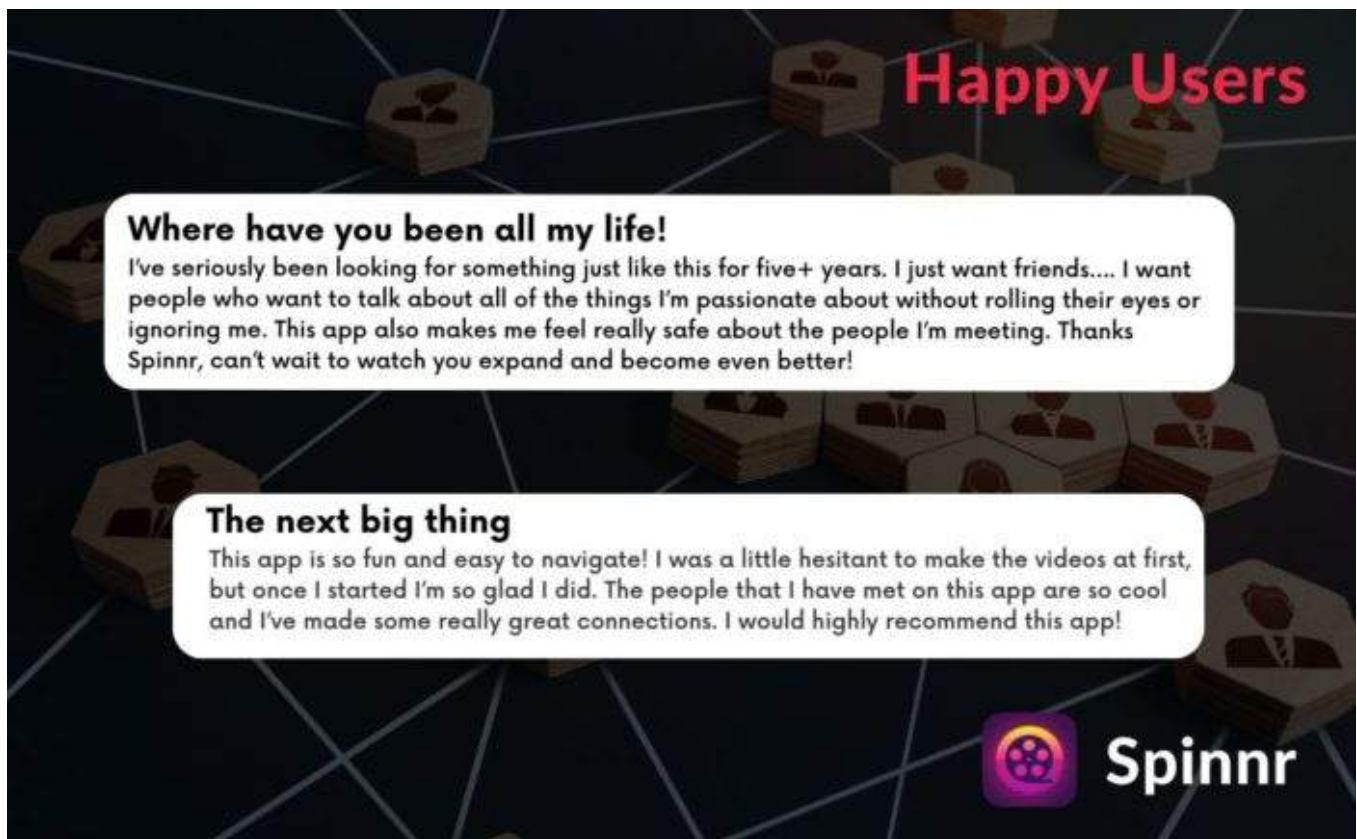

Say goodbye to loneliness and hello to Spinnr.

Get ready to show off your sparkling personality, make new friends, and bid farewell to loneliness – all for free! With Spinnr, you'll have access to a fantastic video platform that's designed to help you connect with like-minded people. No hidden costs, no monthly or yearly subscriptions – just download the app on your Android or iOS device, and start enjoying Spinnr.

At Spinnr, we believe that making new friends and establishing meaningful connections should be accessible to everyone, regardless of their budget. That's why we've created a social network that's completely free to use. Oh, and no pesky or annoying ads like you see on other platforms!

Why You Should Start Using Spinnr!

Say goodbye to isolation and hello to new friendships with Spinnr! If you're looking for a fun and creative way to meet new people and build meaningful connections, look no further. Here are just a few reasons why you should install this incredible app:

- Spinnr is free! This is more than enough reason to use this app. Many apps will make you subscribe to some monthly or yearly plans but that's not the deal with Spinnr.
- Spinnr lets you meet people who are being their authentic selves, instead of the typical static old pictures and boring bios.
- Only video profiles of people who are showing their authentic selves are on the app.
- With Spinnr, you can create valuable connections with new friends and bid loneliness goodbye.
- Still looking for more reasons? Here's the last one I'll give; Spinnr has an amazing and unique user interface! You won't face any challenges while navigating the app. And even if you do, Spinnr is the only app in the world with public chat rooms (called Squads) where you can talk to their admins, as well as a whole screen filled with video tutorials in their settings screen. They are there to help!

Using Spinnr

Spinnr is so easy to use. You don't need any prior knowledge to use the app. Simply visit the [App Store](#) or [Google Play Store](#) from your iOS or Android device to download the app.

Launch the app after you installed it.

For iPhones you can sign in with Apple, Google, or Email. With Android, you can sign in with Google, or Email.

You can then enter a username and click on signup.

Add a profile photo and click on next.

You can also select your birthday, and at least three interests and click on next.

Select the type of person you want to meet from the options given.

Enter your location in the space provided. Don't worry, it's approximate, and Spinnr doesn't store your exact location for privacy purposes.

Record or upload at least one video to introduce yourself to people.

Did You Know?

SPINN R

Loneliness, boredom, and pandemic isolation have ruined friendships in the world. But Spinnr fixes this huge problem! Spinnr was founded in August 2022 by founder Jason Sherman, along with co-founders Kristin LaSalle and Eric Raymond.

Ratings by TheWebAppMarket

Product Design – 4.9/5
User Interface – 4.7/ 5
Ui / UX – 4.8/ 5
Overall Performance – 4.8/ 5

TheWebAppMarket Verdict

Many social platforms today are for interacting with individuals you already know or have never met (and probably never will). Spinnr was built to help you leave your comfort zone and make new acquaintances in your neighborhood that share your hobbies and interests to get you out of the house (or stay indoors) to do fun activities with new friends! Or you can make new friends around the world and just send each other video or audio messages throughout the day to get to know each other! Plus with Squads, you can form groups to really have some fun!

Spinnr's go-to-market strategy includes a nationwide launch, university promotions and events, and a strong plan to reach critical mass and generate revenue.

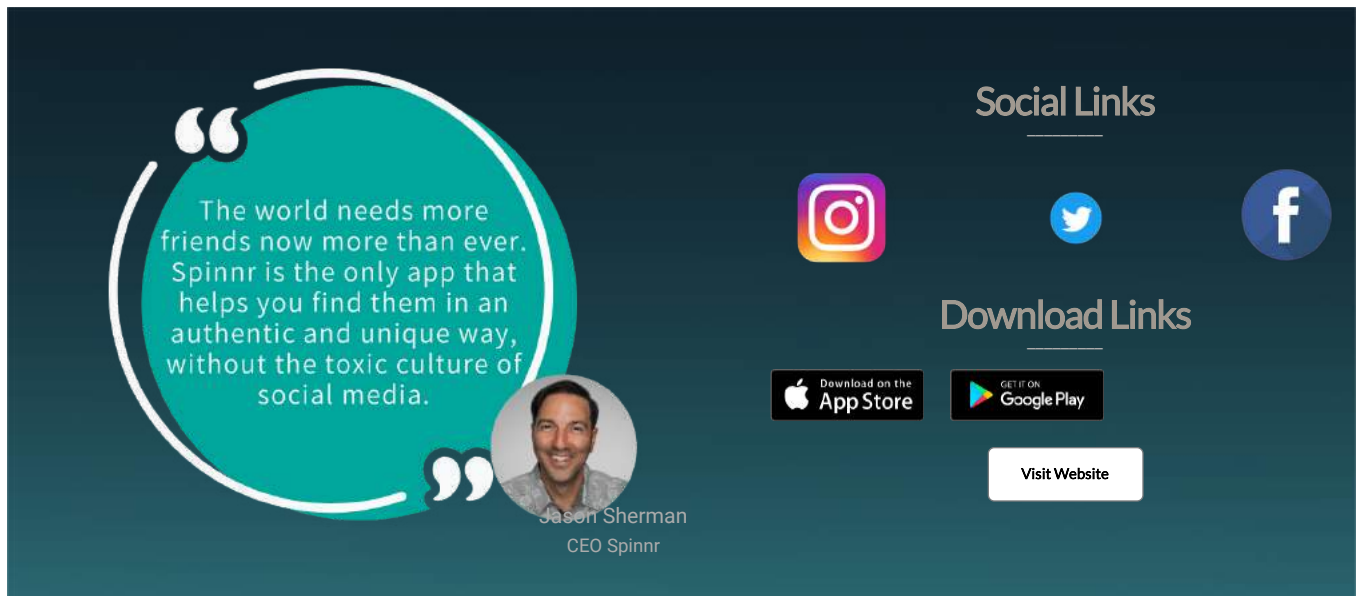

Navigating Video Friendship app Spinnr!

The app is free for all users, and the interface is fun to navigate.

The team is strong and diverse, with years of experience in technical, marketing, and business areas.

Join Spinnr Community

The world needs more friends now more than ever. Spinnr is the only app that helps you find them in an authentic and unique way, without the toxic culture of social media.

In a world plagued by loneliness and social isolation, Spinnr, a video friendship app founded in 2022, is on a mission to bring people together. With the U.S. surgeon general's loneliness epidemic and friendship recession on the rise, Spinnr addresses the profound need for meaningful connections. By leveraging technology, the app connects individuals based on shared hobbies and interests, creating a safe and supportive environment for fostering genuine friendships. This article delves into how Spinnr is transforming the social landscape and its vision for the future.

Problem

Spinnr tackles the growing issue of loneliness and isolation, which has been exacerbated by the pandemic. With nearly half of Americans expressing dissatisfaction with their number of friends, and the detrimental consequences of loneliness on mental health, Spinnr's mission is more critical than ever. By providing a platform that facilitates connections based on shared interests, Spinnr offers a solution for individuals seeking genuine friendships and meaningful social interactions. The app is dedicated to breaking the cycle of loneliness and helping people build strong, supportive networks.

Inspiration

Spinnr has been a catalyst for positive change in the lives of its members, inspiring heartwarming stories of transformation. The app's user-friendly interface and intuitive features have made it particularly impactful for individuals facing mental challenges, such as autism. By creating a welcoming and inclusive environment, Spinnr empowers these individuals to effortlessly connect with like-minded people and forge genuine friendships. The absence of toxicity within the app fosters a safe space where members can thrive, resulting in tangible improvements in mental health and overall well-being. Spinnr is not just an app; it's a beacon of hope for those feeling lonely and depressed.

Spinnr looks up to Discord, a renowned platform that excels in fostering communities and facilitating engaging interactions. Discord's commitment to building and nurturing communities resonates deeply with Spinnr's vision. The platform's interactive nature, with features such as voice channels, video calls, and real-time messaging, encourages active participation and collaboration. Discord's versatility in

accommodating diverse interests and communities further enhances its appeal. Spinnr aims to

incorporate these qualities, creating an engaging and immersive experience where users can connect based on shared hobbies and interests. (https://www.killerstartups.com/submit-startup)

Conclusion

In four years' time, Spinnr envisions itself as the go-to platform for meeting new friends and engaging in enjoyable group activities. The app will have established itself as a thriving event hub, allowing users to seamlessly plan and organize social gatherings and experiences. By leveraging its robust features and intuitive interface, Spinnr will connect individuals based on shared interests, fostering a supportive and inclusive environment free from toxicity.

Additionally, Spinnr aims to become a revolutionary communication channel for businesses. Providing a clutter-free space devoid of advertisements and noise, the platform will enable businesses to connect and engage with their customers on a genuine and meaningful level. This streamlined communication will empower businesses to understand customer needs, share valuable information, and build lasting relationships.

Spinnr is reshaping the way people connect, fostering meaningful friendships in a world plagued by loneliness and isolation. By leveraging technology and focusing on shared hobbies and interests, Spinnr provides a safe and supportive platform for individuals to meet new friends and engage in enjoyable group activities. With a vision for the future that includes becoming an event hub and a revolutionary business-to-customer communication channel, Spinnr is committed to transforming social connections and creating a positive impact on mental health and well-being. Through its dedication to fostering genuine friendships, Spinnr is redefining socialization in the digital age.

Surgeon General Declares Loneliness a Public Health Crisis: Spinnr Offers Solution

by Prodigy Press

May 4, 2023 12:16 PM | 3 min read

Become An Options Master in Today's Market!

Wow! The S&P 500 hit an all-time high. Tech and health sectors are red hot. Now's the time to learn Nic Chahine's 411% gains-with-options secret. **Grab his free report now.**

Philadelphia, PA - In the midst of what has been called a loneliness epidemic, one app is seeking to revolutionize the way people make connections and build meaningful relationships. **Spinnr®**, a video-based friendship app, is the ultimate solution to combating the loneliness and friendship recession in America.

According to the U.S. Surgeon General Vivek Murthy, loneliness is a public health crisis that has been underappreciated, with consequences including an increased risk of heart disease, stroke, dementia, and premature death. However, as Spinnr VP of Marketing and cofounder Kristin LaSalle explains, "We know it's difficult to meet new friends while living through several historic moments that the whole world is dealing with. That's why we built Spinnr."

Spinnr aims to change the way people make new friends. With a simple to use interface, that doesn't include any of the negative features rampant on social media such as likes, comments, followers, and other toxic behaviors, Spinnr cuts through the noise. Featuring video profiles, intro videos, and video messaging, members can easily connect with people around them who share their hobbies and interests. The app's emphasis on real-life connections and face-to-face interactions helps combat the negative effects of social media and cyber interaction, bringing back the meaningful relationships of the past.

"We believe there is a huge gap in the market for creating friendships and joining a community. Our innovative platform is the solution to this obvious problem," said Spinnr CEO and founder Jason Sherman. "Our forward-thinking platform is designed to promote healthy and balanced use of technology and foster genuine human connections. We are dedicated to helping people build and maintain meaningful friendships, regardless of the challenges presented by the world."

Recent data shows that loneliness has been on the rise for years, with one survey finding that nearly half of all Americans report feeling lonely, and 43% say they feel isolated from others. This trend has only been exacerbated by the COVID-19 pandemic, with social distancing measures and remote work making it even harder to build social connections.

However, with Spinnr, finding friends who share your interests and hobbies is easier than ever before. "Spinnr is for everyone," says Sherman. "Whether you just moved to a new city and are looking for new friends to explore with, or you just got a new frisbee and want someone to help you get better at throwing it."

As loneliness continues to be a critical public health issue, it's important to take steps to address it. Spinnr offers a safe and inclusive space for all users, welcoming and encouraging everyone to be themselves. The app supports the LGBTQ community and all genders and identities, making it a truly accessible and diverse community for all. The app also features an event section to find things to do in your area, and allows members to create their own private events as well.

As society continues to grapple with the negative effects of social media on mental health, one app is offering a solution. Spinnr®, a video-based friendship app, has been addressing the impact of social media on mental health and promoting positive relationships. With its emphasis on finding friends through shared interests and hobbies, Spinnr offers a way to create positive friendships and join a community of like-minded people. By removing the toxic behavior often found on social media platforms, Spinnr is providing a safe and inclusive space for users to build meaningful relationships and combat the negative effects of social media.

In a world where loneliness and isolation have become all too common, Spinnr offers a new way forward, helping people make real connections with real people. As the Spinnr team says, "It's time to find your Spinnr Squad and spin with them!"

The app is available for [iPhone](#) and [Android](#) with a web version on the way. You can download the apps or read more information about the company at [Spinnr.app](#)
